To start with, online education had started in 2020 year because of Coronavirus. All schools closed and started an online education. First and foremost advantage of this type education is that you won't get ill by Coronavirus. Another good thing is that students can sleep more. If a video lesson starts at 8 a.m., they can get up at 7:40 and they won't be late! However, online education is good only for students. If teacher will ask a question, children with microphones will answer. But students without

microphones won't answer. Teachers are becoming angry because of this.  
I really like online education. It is safe and it has many advantages for me.
