### Writing

Nowadays people do not visit museums very often, because they do not see the use of its resources. Actually, they are very useful. In this post I am going to tell you about our school museum.

Our museum has a lot of interesting details and objects. You can find there photos of historical individuals who took part in developing <sup>27</sup> our country and its safety. There are also pictures of some important buildings and places. Also you can see the written information about events that happened in the past.

The museum's resources have a lot of use for students. The information can help them study for their exams. Also I want to mention that knowing history of the country you live in is very important.

In conclusion I want to say that studying with our school museum can help students with finding information to make their grades better.
